

Quest QTC 1080TC Twin Cone Ceiling Speaker

The Quest Q-Tech series QTC-1080TC ceiling speaker is a 5 tapping 15 watt 100/70V line 2-way speaker that is optimised for wide dispersion high intelligibility vocal coverage in commercial environments.

Efficiency from this twin cone ceiling speaker is high and combined with a high quality transformer, audio performance is very good at maximum power voltage tapings. The speaker's relatively light weight makes it an easily flush-mounted ceiling speaker in false or plaster ceilings or panels.

Main body in propylene material, alloy grille colour white and connections via rear terminal strip with clear tapping connection indicators.

Installation Environment

Indoor light weight ceiling speaker ideal for Schools, churches, commercial music voice paging and acoustic environments where wide dispersion and uniform frequency coverage is required.

Specifications

Speaker Type	8 inch Twin Cone
Rated Power	15w
Speaker Tappings	15w, 7.5w, 3.25w, 1.5w
Line Voltage	100V
Sensitivity	87.5dB
Frequency Response	80Hz-14KHz
Hole size	252mm
Mass	1.2Kg
