ABOUT CORDIAL

Founded in the early 1990s as a division of the Hermann Adam company, and still headquartered in Germany, Cordial manufactures an extensive range of ready-made cables for instrument, microphone, loudspeaker and recording applications. With over 25 years of experience in high quality manufacturing, Cordial's precision-made cables have set the standard for accurate, dependable, worry-free transmission of audio, video, lighting, and data signals. With NEUTRIK and REAN connectors, wiring designed for optimal conductivity, flexibility and tensile strength, as well as trendsetting inclusions such as NEUTRIK Silent plugs and anticorrosive gold plating, Cordial's approach to quality engineering has become the stuff of legend.

In addition to their presence in the retail and production sectors, Cordial's bulk cable offerings have also become a go-to resource for installers and integrators worldwide. Chosen for their combination of superbly clean signal transmission characteristics, coupled with unsurpassed reliability and durability, Cordial cabling now forms the backbone of many major concert venues, exhibition halls, houses of worship, night clubs, schools and much more.

Cordial

ESSENTIALS

The Essentials line provides a highly affordable entry into the world of Cordial's 'True to the Source' approach to audio transmission. Like all Cordial cables, Essentials are made with Cordial's 99.99% pure virgin (non-recycled) oxygen-free copper and are manufactured to exacting specifications.

AUSTRIAN AUDIO

Delightfully Revealing

The Hi-X Series from Austrian Audio.

Austrian Audio created their new Hi-X series of headphones with critical listening, performance and mixing in mind.

With their superior high-precision and spacious sound, Hi-X headphones are built specifically to satisfy the need for a detailed, accurate listening experience. Featuring exceptional build quality, with all metal hinges and headbow, along with special soft memory foam earpads, Hi-X headphones offer best-in-class comfort and unrivalled durability.

The same qualities that make them great for professional audio production also make them perfect for audiophiles who appreciate hearing every shade of nuance in the music they love.

HI-X50

PROFESSIONAL CLOSED-BACK ON-EAR HEADPHONES

Detailed, crystal clear sound, well-suited to performance.

HI-X55

PROFESSIONAL CLOSED-BACK OVER-EAR HEADPHONES

Pure, analytical sound, perfect for audiophiles & engineers.

HI-X65

PROFESSIONAL OPEN-BACK OVER-EAR HEADPHONES

Precise, open sound, ideal for mixing & mastering.
